STRAY SHOTS FROM "THE PISTOL IN COUNCIL.'

The disgraceful scene at the last meeting of louncil was the topic of conversation among all classes vesterday. The ball first fired did not miss Sheriff Mackey'

nead more than an inch. After passing through the window it struck the upper portion of the State Courthouse, across the street, tore down some plastering, and fell to the pavement. A considerable number of persons visited the Council chamber yesterday to observe the "scene

of conflict." One Alderman, whose business called him out of the Council chamber when the fight began, vas heard to remark that things were coming to a pretty pass when men who didn't vote or talk as a faction wanted them to do, were to be insulted and shot at.

Some of those who decamped from the Council Chamber during the fight, were in a hurry to get down stairs, and some slid down the banisters. One man slipped off and fell about ten feet, ininring himself slightly.

Alderman T. J. Mackey was at home in bed all day yesterday, and was reported to be very sick. Alderman E. W. M. Mackey was about attend-

ing to business as usual. The Inspector General's physician stated yesterday, that his patient had been taking morphine for some time, to relieve the pain, caused by a broken jaw bone, resulting from a dental operation, and on Thursday, took three grains of the drug, which was so powerful as to becloud

reason and make him almost irresponsible. It is reported that Alderman T. J. Mackey will tender his resignation at the next regular meet-

ing of Council. Fool who? Some of the Aldermen assert that the "special usiness" for the last meeting was all a blind, as it was determined to bring up and pass Corbin's claim.

Rumor hath it that there was a partial reconciliation yesterday between the Sheriff and In spector General.

Some of the Radicals are bringing a strong pressure upon some of the Aldermen to influence them to vote for the expulsion of the Inspector General. Very likely!

It is generally conceded that the Corbin claim

will not trouble the Aldermen again. It is thought that a vote of censure upon the conduct of the shooting Alderman will be the only notice taken by Council of the recent affair. A rumor afloat late yesterday afternoon was to the effect that at the next meeting of Council there would be an ordinance introduced forbidding the sale or use of morphine within the city

THE MEDICAL COLLEGE OF SOUTH CAROLINA, IN this city, will commence its winter-term on Monday next, the first proximo. We have not heard what number of students are expected, but hope it will be a goodly number, as the gentlemen of the faculty certainly merit a substantial reward for their arduous labors, which we know will be faithfully performed.

There is no better institution in the country, as will be testified by thousands of its graduates, who live in every State of the South and West, and fill positions of honor and trust in their re spective spheres. THE STRIKE AND THE REMEDY.

Our community has frequently been disturbed of late by the demands of a set of Radical negroes, who have united under the name of the Longshoremen's Protective Union, and who, availing themselves of the supposed necessity of their employers, have set up the most unreasonsble exactions in the matter of wages. A very little firmness, however, on the part of the employers defeated their attempts. They have now made another outbreak on a new pretended

issue. For some good and sufficient reason, we presume, certain shipowners refuse to trust the cargoes to the hands of one Stoddard, who is a stevedore and a Radical office-holder. Whereupon this protective union refuse to load or unload vessels, unless Stevedore Stoddard be permitted to have the handling of property which the parties interested are disinclined to commit to his unwatched manipulation. The union claims that, being a Radical, he is necessarily trustworthy, and therefore any exception to him must have its origin in objection to his political

principles. If this were true, and the character of the man in no way involved, does it lie in the mouths of Radicals to complain of it as a proscription, when they have, within a very few days only, in mass assemblage in the entire Radical league, demanded of their creatures, the Mayor and Aldermen of Radicalized Charleston, that every Democrat on the police of the city should be forthwith discharged, and their places filled by members of the Union League; and in obedience to this mandate, presented by a select committee, these demands have been acceeded to, and some twenty or thirty Democrats turned adrift at once, and a promise made by the Mayor that he would remove the others as fast as their places could be supplied? Now these negro Radicals again disturb the quiet of the community with their howlings, because, for sooth, the poisoned chalice, which they prepared for Democrats, has been commend-

ed to their own lips. It is time, in our opinion, that these political doctors should be made to swallow their own physic. and we would suggest to shipowners and consignees, that the very best dose to administer would be the substitution of these proscribed Democrats in lieu of their Radical proscribers. Prequent doses of this sort may be required for a time, but its operation will be ultimately effectual. So long as the disease continues, the reme dy should be applied. It is a panacea for special cases, and a prophylactic to purify the political atmosphere of all bodies approaching a similar state of corruption.

December next,
The following most valuable LANDS, lying from
three to four miles from the Town of Camden,
immediately on the South Carolina Railread,
fronting on Wateree River, and running back, eastwardly, five miles, covering over five thous and acres, one thousand of which are fine swamp lands in cultivation, one thousand fine uplands in cultivation, and over three thousand in original forest, heavily timbered with oaks, hickory, dog-wood, pine, &c., niuch of it very fine cotton land, finely watered and offering abundant winter

pasturage: First, BELLE-MONT, a very choice plantation pasturage:

First. BELLE-MONT, a very choice plantation of over eight hundred acres, on Wateree River, three miles from Camden, with a large settlement on it; will produce, without manures, a bale of cetton or seventy-five bushels of corn to the acre. This is regarded as the best body of land on the Wateree River.

Second. TOWN CREEK PLANTATION, adjoining the above, consists of four thousand five hundred acres, recently held as one large plancation; comprising swamp, second bottom, and uplands, heavily timbered and finely watered, having two fine streams running through it. The South Carolina Railroad and two public highways run through these lands and render them accessible at all points. They are very convenient to Camden; the uplands are perfectly healthful and present rare advantages.
